

# WORSHIP.WORKS

invites you to

## #WORKISWORSHIP

An evening of vision, testimonies and opportunities to join a growing team of "marketplace ministers"

Thursday 29th June 7:30pm, Maidstone  
(and via WebEx for international participants)

To find out more please email [events@worship.works](mailto:events@worship.works) or tweet @worshipwrx

### Discover how your work is worship

In this generation, a growing number of Jesus' followers are seeing that for the Church to be effective it must be active every day outside of the four walls of traditional church buildings.

Join us for #workisworship and hear principles for worshipping through your work, with practical examples from people like you who see every work assignment as a ministry opportunity.

You will hear how the Church (aka Ekklesia) is at work every day through the lives of "marketplace ministers", and you will gain practical tools to help you activate your faith in the workplace and start to change your work, industry and even nation!

Don't miss this free event if you are passionate about seeing the Kingdom of God touch the world around you, and want to be part of a movement that could transform the way you see the Church and your work.

Email [events@worship.works](mailto:events@worship.works) to find out more or book your place. Your life might never be the same again.

### About Worship.Works

Worship.Works trains followers of Jesus to see their work as worship, with endless possibilities to transform nations. We support individuals, church groups and business organisations by teaching, speaking and through online resources. Our vision is to equip thousands of people to minister through their work.

Find out more at [www.worship.works](http://www.worship.works).

### Hear about career opportunities

You'll also hear about upcoming opportunities for full-time, part-time and flexible roles in marketplace ministry with a world-class consultancy, including:

- Trainee Research Analysts
- New Business Connector
- Technologist (full-stack developer)
- Graphic Designer
- Associate Consultants
- Data Quality Analysts

...and more!

In these roles you will learn how to see your work as worship, be led by God as you build prayer into your work life, and operate as a minister in the marketplace, working to transform nations and see an end to systemic poverty.

Full details of opportunities and requirements will be provided at the event. To apply for the roles above, you'll need either a relevant university degree level qualification, or a minimum of 2-3 years of relevant working experience.

Do you have a desire to be used by God in your work? Want to develop a career with a world class team?  
Perhaps God is calling you to marketplace ministry.
